LETTER OF RECOMMENDATION

I am writing this letter to give my highest possible recommendation for Mr. Siddharth M Nair for acceptance in this reputed Research Internship program. He was my student for the course 'Artificial Intelligence'. During this period, he had worked under my guidance, on a research paper/project titled "Statistical Model based Predictive Analysis of COVID-19 Pandemic Trend: Perspectives for India" (under review). He had contributed immensely to the research, modelling and execution of the "Time-Series Forecasting Algorithms" which were used.

Siddharth's approach towards the project, proved his level of commitment and dedication to the tasks assigned to him. He has exhibited his skills of working as a group exceptionally well and has succeeded in the completion of this project well within the envisaged time frame. In addition to his amicable personality, his attitude towards his fellow team members was also extremely noteworthy.

Apart from Artificial Intelligence, Siddharth's ambitious research interests include Computational Learning, Deep Learning and Image Processing. His curiosity and innovative thinking strengths will ensure an excellent performance in the Research Internship program. His desire to excel in the evolving field of technology will help him flourish in any environment

If you have any queries regarding Mr. Siddharth, feel free to contact me by E-mail at verginraja.m@vit.ac.in

Dr. Vergin Raja Sarobin M
Assistant Professor Senior Grade 2,
School of Computing Science and Engineering,
VIT Institute of Technology,
Chennai.
